

Shoaib Ali

Problem Solver - Quick Learner

I am Shoaib Ali. I have done my FSC in pre-engineering from New Ali Garh College Tando Adam. I am currently studying at Sukkur IBA University in the STHP Scholarship Program. My degree is in Computer Science and now I am in the 3rd year. My future goal is to be part of companies like Google, Microsoft, Amazon, Alibaba, Facebook, and many more. I have Python, C++, Java, Data Structure HTML, CSS, and Javascript expertise. I did a project in C++, Minesweeper, and four projects in Java, which are the ATM system, Hostel Management System, Library Management System, and Notepad Pro, and two clones of Amazon and Youtube using HTML CSS and JS. Now I am working on a desktop application called Web Scrapping which is also Java-based. To get more expertise, I also do tasks on Leetcode and Hackerrank.
